

**LAFAYETTE CREMATORY, INC.
AUTHORITY TO CREMATE AND ORDER FOR DISPOSITION**

I (We), the undersigned (the "Authorizing Agent(s)", hereby request and authorize _____ hereinafter referred to as "Funeral Home") License No. _____ and Lafayette Crematory (hereinafter referred to as the "Crematory") to take possession of and make arrangements for the cremation of and the final disposition of the Decedent named below (the "Decedent") in accordance with and subject to the provisions set forth in this document, and in accordance with and subject to their rules and regulations, and any applicable state or local laws or regulations.

Name of Decedent: _____ Sex: _____ Age: _____

Date of Death: _____ Time of Death: _____ Place of Death: _____

Funeral Director in Charge: _____ License No. _____ Location: _____

SPECIAL INSTRUCTIONS: _____

PACEMAKERS, PROSTHESES, AND RADIOACTIVE IMPLANTS

Mechanical, radioactive devices or implants in the Decedent may create a hazardous condition when placed in a cremation chamber. All pacemakers must be removed prior to delivery of the Decedent to the Crematory and/or may be removed by personnel of the Funeral Home.

Do the decedent's remains contain a pacemaker? Yes No
 If yes, was the pacemaker removed prior to delivery to the Crematory? Yes No
 Was the decedent treated with radioactive implants? Yes No
 If yes, the following list contains all radioactive implants and date of implantation:

The body of most radioactive implant patients can be cremated safely at any time. If the body is to be cremated less than 20 months from the date of the radioactive implant, the cremated remains should not be processed and should be put in a metal urn for storage or burial. Cremated remains should not be scattered until 20 months from the date of the implant. If the date of radioactive implantation is less than 14 days, the physician or hospital must be notified.

Do the decedent's remains contain any other mechanical or prosthetic devices? Yes No
 If yes, the following list contains all mechanical and/or prosthetic devices which are implanted in or attached to the Decedent:

The Decedent's remains **DO NOT** contain a pacemaker or *any* other device that could be harmful to the Crematory.
Initials of Authorizing Agent(s): _____

I understand that if the Funeral Home has not been notified about such devices or implants, and not instructed to remove them, I/We are responsible for any damages caused to the Crematory or crematory personnel by such implants or devices.

Initials of Authorizing Agent(s): _____

It is the policy of the Crematory to refrain from opening any casket or alternative cremation container. Accordingly, any items of value should be removed from the casket or alternative cremation container prior to its delivery to the Crematory. I understand that the Crematory shall not be liable for, and I agree to hold harmless and indemnify the Crematory against, any claims for loss, damage or destruction of any items of value delivered to the Crematory in the casket or alternative cremation container.

Initials of Authorizing Agent(s): _____

INFECTIOUS, CONTAGIOUS, COMMUNICABLE, OR OTHERWISE DANGERS DISEASES

Did the death occur as a result of a disease declared by the Department of Health and Hospitals to be infectious, contagious, communicable, or otherwise dangerous to the public health, if known? Yes No

CREMATION INFORMATION

Authorizing Agents acknowledge and agree that the Crematory and its authorized agents, subcontractors or assigns are authorized to perform the cremation of the Decedent upon receipt of human remains, at their discretion, and according to their own time schedule as work permits, without obtaining any further authorizations or instructions. The human body burns with the casket, container, or other material in the cremation chamber. Some bone fragments are not combustible at the incineration temperature and, as a result, remain in the cremation chamber. During the cremation, the contents of the chamber may be moved to facilitate incineration. The chamber is composed of ceramic or other material which disintegrates slightly during each cremation and the product of that disintegration is commingled with the cremated remains. Nearly all the contents of the cremation chamber, consisting of the cremated remains, disintegrated chamber material, and small amounts of residue from previous cremations, are removed together and crushed, pulverized, or ground to facilitate inurnment or scattering. Some residue remains in the cracks and uneven places of the chamber. Periodically, the accumulation of this residue is removed and interred in a dedicated cemetery property. The Crematory requires either a casket or an alternative (cremation) container for the cremation. Please refer to page 3 of this form for further details regarding the caskets/containers. After the cremated remains have been processed, they will be placed in the designated urn or container. The Crematory will make a reasonable effort to put all of the cremated remains in the urn or container, with the exception of dust or other residue that may remain on the processing equipment.

DECLARATION OF INTENT FOR THE DISPOSITION OF CREMATED REMAINS

The Crematory is to return the cremated remains of the Decedent to the possession and custody of the Funeral Home. I/We hereby authorize the funeral home to arrange for the disposition of the cremated remains of the deceased as follows: _____
Initials of Authorizing Agent(s): _____

I/We understand that the services and obligations of the Crematory shall be fulfilled when the cremated remains of the Decedent are returned to the possession and custody of the Funeral Home. If the cremated remains are unclaimed after 60 days from the date of cremation, the cremated human remains may be disposed of by the funeral home in any manner permitted by law.
Initials of Authorizing Agent(s): _____

AUTHORITY OF AUTHORIZING AGENT(S)

I (We) hereby certify that the Decedent left the surviving heirs at Law:

Spouse Yes No _____

Children Yes No # _____ Siblings Yes No # _____ Other Name(s) and Relationship: _____

Parents Yes No _____

Separate authorization(s), if necessary, shall be attached to, and considered part of, this form.

DISCLOSURES, WARRANTIES AND PERMISSION (INITIAL EACH)

I/We certify that Decedent named above gave specific directions in the form of a written and notarized declaration to be cremated. Yes ____ No ____
(If the above answer is "Yes" written and notarized authorization of Decedent must be attached).

Initials of Authorizing Agent(s): _____

I/We or our designated representative has personally identified the remains and assume full responsibility for the identity of Decedent.

Initials of Authorizing Agent(s): _____

I/We understand that if I/we wish to remove and/or retain any item from the remains, casket or container, I/we must do so directly or by authorized agent prior to the transportation of the Decedent from the Funeral Home to the Crematory.

Initials of Authorizing Agent(s): _____

I/We give full permission for the following:

- a) The incidental or inadvertent commingling of the cremated remains.
- b) The processing of the remains and resulting incidental commingling of the cremated remains.
- c) The disposal by the Crematory of metal or other non-human material recovered to which may be affixed bone particles or other human residue.

Initials of Authorizing Agent(s): _____

INDEMNITY

I/We declare under penalty of perjury that the foregoing certifications, representations and statements are true and correct, and that this statement is being made to induce the above named Crematory to cremate (or cause to be cremated) the remains of the Decedent named above. I/We agree to hold harmless, indemnify and defend the above named Funeral Home and Crematory as well as their respective representatives, directors, officers, agents, employees and shareholders, from and against all claims, liabilities or damages whatsoever (including reasonable attorney fees) which may result from this authorization and order including the failure to properly identify the remains, failure to take possession or make proper arrangements for the final disposition of the cremated remains, the processing of remains, shipping of remains, any explodable any or harmful impact, infectious diseases, other persons claiming rights to control disposition of the remains, or any other cause. No warranties, express or implied, are made and damages shall be limited to the amount of the cremation fee paid.

ADDITIONAL TERMS AND CONDITIONS

THE CREMATION PROCESS

Cremation is performed to prepare the deceased for memorialization and it is carried out by placing the deceased in a casket or alternative container and then placing the casket or alternative container into a cremation chamber, or retort, where they are subjected to intense heat and flame. During the cremation process, it may be necessary to open the cremation chamber and reposition the deceased in order to facilitate a complete and thorough cremation. Through the use of suitable fuel, incineration of the container and its contents is accomplished by raising the temperature substantially (extreme temperature) and all substances are consumed or driven off, except bone fragments (calcium compounds) and metal (including dental gold and silver and other non-human materials) as the temperature is not sufficient to consume them.

Due to the nature of the cremation process, any personal possession or valuable materials such as dental gold and silver, jewelry (as well as any body prostheses or dental bridgework) that are left with the Decedent and not removed from the casket or container prior to cremation may be destroyed and become non-recoverable. If not destroyed, the Crematory is authorized to dispose of such materials at its sole discretion. **THE AUTHORIZING AGENT(S) UNDERSTANDS THAT ARRANGEMENTS MUST BE MADE WITH THE FUNERAL HOME TO REMOVE ANY SUCH POSSESSIONS OR VALUABLES PRIOR TO THE TIME THAT THE DECEDENT IS TRANSPORTED TO THE CREMATORY.**

Following a cooling period, the cremated remains, which will normally weigh several pounds in the case of an average -size adult, are then swept or raked from the cremation chamber. The Crematory makes a reasonable effort to remove all of the cremated remains from the cremation chamber, but it is impossible to remove all of them, as some dust and other residue from the process are always left behind. In addition, while every reasonable effort will be made to avoid commingling, inadvertent or incidental commingling of minute particles of cremated remains from the residue of previous cremation is a possibility, and the Authorizing Agent understands and accepts this fact.

After the cremated remains are removed from the cremation chamber, all non-combustible materials (insofar as possible), such as dental bridgework, and materials from the casket or container, such as hinges, latches, nails, etc., will be separated and removed from the human bone fragments by visible or magnetic selection. The Crematory is authorized to dispose of these materials with similar materials from other cremations in a non-recoverable manner, so that only the human bone fragments will remain.

When cremated remains are removed from the cremation chamber, the skeletal remains often contain recognizable bone fragments. After the bone fragments have been separated from the other material, they will be mechanically process (pulverized), which includes crushing or grinding and incidental commingling of the remains with the residue from the processing of previously cremated remains, into granulated particles of unidentified dimensions, virtually unrecognizable as human remains, prior to placement into the designated container.

CASKET/CONTAINERS

All caskets and alternative containers must meet the following standards:

1. Be composed of materials suitable for cremation;
2. Be able to be closed to provide a complete covering for the human remains;
3. Be sufficient for handling with ease;
4. Be resistant to leakage or spillage;
5. Be able to provide protection for the health and safety of crematory personnel.

The Crematory is authorized to inspect the casket or alternative container. In the event there is leakage or damage, the Crematory may contact the Funeral Home directly for instructions. For health reasons, the Crematory's personnel will not open the container.

Many caskets that are comprised of combustible materials also contain exterior parts, *e.g.*, decorative handles or rails, that are not combustible and that may cause damage to the cremation equipment. The Crematory, at its sole discretion, reserves the right to remove these non-combustible materials prior to cremation and to discard them with similar materials from other cremations and other refuse in a non-recoverable manner.

URNS/TEMPORARY CONTAINERS

In the event the urn or other container selected is insufficient to accommodate all of the cremated remains, the excess will be placed in a separate receptacle. The separated receptacle will be kept with the primary receptacle and handled according to the disposition instructions on this form. Crematory requires that all urns or containers provided be appropriate for shipping or permanent storage, and that in the case of an adult, it is recommended that the urns or container be a minimum size of 150 cubic inches. Unless a suitable urn is provided for the cremated remains, the Crematory will place the cremated remains in a container furnished by the Crematory, marked temporary, which is not designed for shipment.

FINAL DISPOSITION

Cremation is **NOT** the final disposition, nor is placing the cremated remains in storage at a funeral home final disposition. The cremation process simply reduces the decedent's body to cremated remains. These cremated remains usually are several pounds and usually measure in excess of 150 cubic inches. Some provision must be made for the final disposition of these cremated remains. If the option selected for final disposition include scattering, then the cremated remains will not be recoverable. If scattering is performed in a common area, then the cremated remains may be commingled with particles of other cremated remains that have been previously scattered.

If electronically transmitted, this form must be notarized and filled out below. The original of this document must be delivered directly to Lafayette Crematory without delay. Before me, undersigned authority appeared _____ who on oath said he/she witnessed execution of the above with his true signature, which appears thereon, in the presence of the parties and the other witness, who also signed. Sworn to and subscribed to before me this _____ day of _____, 20 _____, at _____ in the State of _____.

Signature of Notary Public

REPRESENTATIONS OF FUNERAL HOME

Funeral Home, through its duly authorized undersigned representative, certifies that he/she has reviewed this form with the Authorizing Agent(s); that no member of Funeral Home has any knowledge or information that would lead us to believe that any of the answers provided by the Authorizing Agent(s) are incorrect; that the human remains delivered to the Crematory are the same human remains that were identified by Authorizing Agent(s) and the Funeral Home as the Decedent; that Funeral Home has obtained all the necessary permits authorizing the cremation and those permits are attached hereto; and that the representations concerning a pacemaker and other materials or implants that may be potentially hazardous are true.

Funeral Home agrees to hold harmless, indemnify and defend the Crematory as well as Crematory's representatives, directors, officers, agents, employees and shareholders, from and against all claims, liabilities or damages whatsoever (including reasonable attorney fees) which may result from this authorization and order, and also including any failure to properly identify the remains, failure to take possession of or make proper arrangements for the final disposition of the cremated remains, the processing of remains, shipping of remains, any explodable or harmful impact, infectious diseases, any claims of other persons claiming rights to control disposition of the remains, or any other cause.
